

GAIN AN APMP QUALIFICATION

“The course was outstanding, with well developed material and first class delivery.”

This intensive 5 day course (4 day course + refresher day) gives in-depth and comprehensive coverage of the key skills and knowledge required for effective project management as detailed in APM’s “Body of Knowledge”. It is delivered through a combination of facilitated lectures, practical exercises and interactive sessions, where delegates can raise their own concerns and contribute their own experiences of working on projects. Real world examples are used to illustrate problems that may be faced in the working environment, and delegates are encouraged to draw upon their own experiences to further add to the learning experience. The topics, disciplines and enabling skills are progressively built upon and linked to the development of case studies worked on in a team environment to further delegates’ personal skills.

Location	Course Date	Refresher Day & APMP Exam
Humberside - The CATCH Centre	12th - 15th March	29th - 30th March

Costs: -

**4 Classroom Days + 1 Day Refresher followed by the Exam Day
